

LIVE FIRE

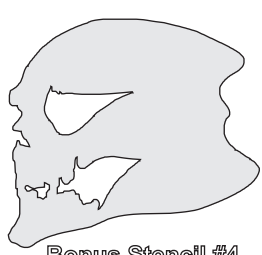

Stencil #1
Flame Kicks

Stencil #2
Flame Whips

Stencil #3
Ember Flashes

Bonus Stencil #4
Burning Skull

Live Fire Stencil series by the ColorMaster

Live Fire Stencils have been designed to be a very user friendly system to produce hot Live Fire effects. There is no cutting and sanding required; Live Fire Stencils are ready to rock out of the package. Live Fire Stencils are the perfect balance of Real Flame Kicks, Whips and Curves. The Live Fire Stencil Kit includes 3 easy to use stencil layouts that are produced in 3 sizes of each stencil so that you can use the appropriate scale of Live Fire to match the size of your project, from a large truck to a tank or helmet.

Stencil #1 Flame Kicks - Has 6 great Flame Kick shapes with 6 opposing convex and concave curves to compliment Flame Kick shapes.

Stencil #2 Flame Whips - Has Deep Concave curves and contrasting Sharp Convex curve action with both positive and negative shapes and are great for the Flame Whip shapes.

Stencil #3 Ember Flashes - Has Elongated curve action with both Flame Kicks and Flame Whips. It also includes compound/convex and compound curves for the quick burning effect. Stencil 3 also has a series of 8 Ember Flashes that range from a single Flash to Double and Triple flash points. These are a tremendous time saver to get that final detail that can make or break your Live Fire.

Bonus Stencil #4 Burning Skull - Is designed to be integrated into fire designs. The Burning Skull Stencil will also come in 3 proportional sizes to fit into any size project you are doing. This stencil will assist you in adding a skull into your fire if you are a beginner, and help you to develop your own skills to the point you can make your own burning skull adaptations. The Burning Skull is designed by Anh Pham.

The Live Fire Stencil series Kit Includes
Stencil #1 Flame Kicks - 3 sizes from Large to Small scale.
Stencil #2 Convex Flame Whips - 3 sizes from Large to Small scale.
Stencil #3 Flame Kicks, Whips and Ember Flashes - 3 sizes from Large to Small scale.
Stencil #4 Burning Skull - 3 sizes from Large to Small scale.
The Live Fire Stencil series Kit contains a total of 12 great stencils.

Rick Faucett, the Color Master, is an award-winning designer who has been involved in the custom paint business for over 30 years. He specializes in color design and coatings special effects, he has a long relationship working with Disney Imagineering on the color and effect concepts for many of their thrill rides and Epcot exhibits.

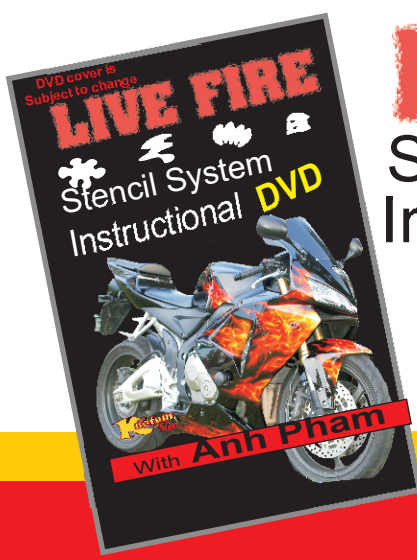

Ultra Mini Live Fire Set - The Ultra Mini-Live Fire set is a much smaller scale set of all 3 Live Fire patterns plus a proportionally smaller Burning Skull. This set is great for small projects like RC Cars and Planes, Bicycles frames, helmets and anything of a sm that you want to set on Fire.
