

# SOLVENT SAVER™

## HOSE & GUN CLEANER

# DEVILBISS®

- Simple, easy to use cleaner
- Speeds up cleaning of fluid hose and fluid passages of spray guns
- Operates with compressed air
- Saves solvent (up to 86%), using finely atomized blasts of solvent
- Reduces V.O.C. emissions
- Air/fluid ratio is operator adjustable for maximum cleaning
- Optional adapter and hose kit, 192026 (KK-5052) allows easy cleanup of pickup tube, hose, and spray gun

Metering permits varying air/solvent mix. Equipped with safety valve. 1/4" NPS (M) air and 3/8" NPS (F) fluid connectors.

### Solvent Saver

The HD-503 2-quart solvent saver is designed for cleaning pressure feed fluid hoses and fluid passages of spray guns quickly and efficiently.

Testing has proven that a mixture of finely atomized solvent is a more efficient cleaner of fluid hoses and gun passages than a pure solvent flush. The operator can adjust the air/solvent ratio to meet specific cleaning needs.

### Important:

Not suitable for use with chlorinated solvents such as 1.1.1 trichloroethane or methylene chloride.

### Solvent Saver Hose / Gun Cleaner

Order No. Model No.	Capacity	Ship Weight (lbs.)	Max. Working Pressure	Material Construction (in contact w/ fluid)
180037 HD-503	2-quart	5	50 psi	Aluminum, nickel plated brass, Teflon,™ and thiokol gaskets
